HAIR & SKIN  
CARE CLINIC  
(425) 427-5163

December, 2007

This is the time of year when chemical peels are advisable; however it is also great time for a photo-facial as seen on Oprah. This is a light treatment that develops collagen, and elastin deep within the skin. The treatment is very effective on wrinkles, deep lines, crow's feet, skin discoloration, acne and rosacea. Try this most relaxing treatment on the market today and you will see your skin strengthen and glow with a healthy vitality.

Matis is on top of the market with a men's line that is blowing the competition away. This is state of the art and the guys are loving the retexturing and healthy skin after using this product line.

We have found a wonderful product called VitaLash that helps you grow longer, thicker, and darker natural lashes. This works great!!

We have the large duo size cleanser and toner. For those of you who wait for this time of year to stock up, come in and get your product!

**Sale on some of Jane Iredale's products.** Some shadows, pressed powders and lipstick that we have in stock are 20% off. When you come for your next appointment take a look and see if we have your colors.

We are having great success with our Visual Changes products. Our acne clients love the fast results and the home compliant products.

We are still getting great results with our laser hair growth machine. **STOP HAIR LOSS NOW!**

Remember, water is the best friend your body and face can have. Water is cheap and available and much underrated. 70% of the brain is water as is a greater part of the body. If you are suffering leg cramps, menstrual cramps or congested skin, drink more water.

Remember that you can get gift cards to solve your gift giving challenges. Maybe a hint to that special someone can get you the treatments you want this year!!

It is great to work with you we hope to see you soon,

- *Joy*
